WHAT WE DO

> ❝
> **Together, we can accomplish anything.**

At Area51 Electronics, we specialize in authorized lines while also carrying the advantage of being an independent distributor of hard-to-find obsolete (end-of-life) verified electronic components.

Access Our Large Network of Suppliers

As an authorized distributor, you will be able to access our vast network of original component manufacturers (OCMs) in various industries including the energy, automotive, industrial, medical, aerospace, and automation sectors.

This ensures you have authentic electronic parts purchased directly through our authorized sources.

We go above and beyond to ensure all products are authentic, handled, and stored in accordance with industry quality standards. Our authorized lines consist of three channels:

- Authorized with a distribution agreement directly with the OCM
- Authorized through a contractual membership with several master distributors
- Direct from the OCM (factory direct)

WHAT WE OFFER

With our proven expertise in electronic component sourcing and distribution, we help you create a customized plan for all your supply chain needs.

Business Diversity

As a **Minority Business Enterprise (MBE)**, **Small Disadvantaged Business (SDB)**, and **LGBTBE®** certified company, we believe diversity drives collaboration, innovation, and growth.

We have a top-tier team from different backgrounds and experiences to better understand your business goals and needs.
